1   TODO Rework Readme

- Installation is very outdated

- cheatsheet is not present in readme

- info about CTAN

2   cheatsheet

- ☐ BUG: Footnotes appear all on the first page

3   HomeworkAssignment

3.1   TODO [16%] v3.0

- ☒ Rename to homeworkassignment

  – To comply to CTANs requirements of all lowercase packagenames.

- ☐ Add proof by contradiction environment

- ☐ Create environments for all existing proofs

- ⊟ [1/2] Add points for excercises

  - ⊟ Expand \newproblem ~~\newsubproblem etc~~ by an optional argument to take the maximum ammount of point one can gain at this problem.
    - ∗ ☐ When passed this is passed to \newsubproblem, create a box to write the points down
    - ∗ ⊠ Add this number of points to the »gradingtable«
  - ⊠ To implement this, the existing optional argument, taking the exercise number has to be replaced with an own command
    - ∗ replace the optional argument of \newproblem by a new command \setproblemnumber
      - · Solved different

- ☐ Add Option to remove the hlines from the layout

  - Standard hlines=all
  - hlines=none remove all
  - hlines=header just remove the hlines around the Title

- ☐ Remove legacy styles
